VICKY ENGINEERING SOLUTIONS LTD
Engineering Reliability. Supporting Industry.

Business profile

Industrial boiler engineering and technical supplies

About Vicky Engineering Solutions Ltd

Based in Nairobi and serving industry since 2014, we help industrial facilities across East Africa maintain boiler and burner systems, plan installations and source technical supplies.

Services and supplies

- **Boiler servicing and maintenance** — equipment assessment and planned servicing.
- **Industrial burner servicing** — review of operating concerns, burner assemblies and parts needs.
- **Boiler and burner spare parts** — controls, instruments, pumps, valves, gaskets and seals.
- **Boiler water treatment** — chemical supply based on feedwater and operating conditions.
- **Installation and commissioning** — planning, coordination and handover.

Request a quotation

Send your site location, equipment make and model, and a description of the work or parts needed. Include a nameplate photo or part number if available.
